TO FIGHT THE STRIKERS.

The manufacturers of the Metal Trades Association have thrown down the gauntlet to the International Association of Machinists. In the midst of a strike which has extended through the entire country, and during which the Association of Machinists has shown itself capable of closing up great industrial establishments in every part of the United States, the manufacturers issue a sweeping statement, in which they denounce and annul every agreement that has existed between the machinists' union and the Metal Trades Association, and declare that hereafter they will have nothing to do with the union, and will absolutely refuse to recognize the right of its officials to represent their employees as a party in any agreement between the latter and themselves. This attitude of defiance was denounced on the part of the members of the National Metal Trades Association at a meeting of its administrative council which was held Saturday in Chicago. To take further action and prepare the manufacturers in the east for the fight that undoubtedly will follow, a convention of machinery manufacturers has been called in New York for June 11. The resolution annulling the agreement with the machinists' union was adopted by the administrative council of the National Metal Trades Association on May 18, 1900, to avoid strikes and lockouts by arbitrating all disputes between employers and employees, it being agreed that, pending arbitration, there should be no strikes and lockouts, and that the strike was declared in violation of this compact. The declaration of principles begins by saying that the National Metal Trades Association are alone responsible for the quality of work made and sold by them, and that consequently they alone must determine the conditions under which their work shall be done. Briefly, they insist upon managing their own business. While they absolutely disapprove of strikes and lockouts and refuse to arbitrate with strikers, they will make no discrimination against any union man who will work for them satisfactorily and peaceably. They alone will determine the number of apprentices, helpers and handy men to be employed. They will require from these a fair day's work for a fair day's pay. Employees will be paid at an hourly rate, by premium system, piece work or contract, as the employer sees fit. In case of disagreement in cases not covered by the declaration the association advises the men to arbitrate their differences before a board composed of six persons, three to be chosen by the employer and three to be chosen by the employee or employees. The association expressly states that all employers must pay their men a fair wage.

ANOTHER ELIJAH.

"I am Elijah, the prophet, who appeared first as Elijah himself; second as John the Baptist, and who now comes in me, the restorer of all things. Elijah was a prophet, John was a preacher, but I combine in myself the attributes of prophet, priest, and ruler over men. Gaze on me then; I say it fearlessly. Make the most of it, you wretches in ecclesiastical garb. I am he that is living physical and spiritual embodiment of Elijah, and my coming to earth a third time has been prophesied by Malachi, by God Himself, by His Son, Jesus, by Peter, and three thousand years ago by Me. All who believe me to be in very truth all of this, will stand up."

And over 3,000 people rose to their feet and greeted the declaration with cheers and handclapping. John Alexander Dowie, true to his promise, made this statement from the platform of the Auditorium in Chicago last night in the presence of 5,000 people. It was the culmination of a frenzied speech, in which he denounced everybody and everything not in Zion, cursed the Pope and the Roman Catholic Church, spat literally at Missouri, the newspapers, and the bankers of Chicago, and raged and tore up and down the stage like a madman. "Understand well what I mean," he continued, "I will take no counsel in my methods of government, I have come to proclaim theocracy, pure and simple, the government of God, by God, and for God, and I will never rest until all other forms of government are driven from the earth."

"You talk about your democracy. Bah! I tell you democracy has been tried in the balance and has failed. The government of the people, by the people, and for the people is a twaddle. I stand loyal to the flag and counter-attack no revolution, but I demand here and now that the name of God must be placed foremost in the constitution of the United States, and the supreme authority of God over all things must be recognized. "Listen to the first message of the prophet," he demanded. "You must pay your tithes and offerings into the storehouse of God. Accursed be ye if ye would seek to rob His house of fullness by not obeying this, His will, sent through Elijah."
